Fire School Schedule

Saturday, September 23, 2006

7:15 am - 8:45 am Participant Check-In and Vendors Open (Johnson Hall)
 9:00 - 12:00 pm Classes in Session Vendors Open (Johnson Hall)
 11:30 - 1:30 pm Lunch (staggered schedule - located in Iowa Hall Cafeteria) Vendors Open (Johnson Hall)
 12:00 - 1:00 pm Check-In for Afternoon Learning Seminars (Johnson Hall)
 Vendors Open (Johnson Hall)
 1:00 - 4:00 pm Classes in Session
 1:00 - 7:00 pm Vendors Open (Johnson Hall)
 4:00 - 7:00 pm Appreciation Barbeque (For all Paid Registrations, Vendors, Instructors and Staff)
 (Must R.S.V.P. for a Admittance Ticket)

Sunday, September 24, 2006

7:15 am - 8:00 am Check-In and Vendors Open (Johnson Hall)
 8:30 - 11:30 am Classes in Session
 8:00 - 1:00 pm Vendors Open (Johnson Hall)
 11:00 - 12:30 pm Lunch (staggered schedule - located in Iowa Hall Cafeteria)
 12:00 - 3:30 pm Classes in Session

**CLASS SIZES ARE LIMITED
 PRE-REGISTRATION REQUIRED
 CALL 1(800) 332-8833 or (319) 398-1022**

Inform the operator you are registering for the CITA Fire School. Please have full name, address, phone number, social security number, course title and section number. Have alternative classes in mind, in case the required class is full. If your course is full, please ask to be on a waiting list. You may pay by check, MasterCard, Visa, or Discover. If you want your tuition billed they will register you must fill out the form located in the back of the book in order to have your tuition billed to your department or service otherwise you will be responsible for the charges.

Billing and Refund Policy

Individual may register and bill their departments (a billing authorization form must be filled out and returned). Invoices will not be sent to individuals.

Billing for all registered participants will be done regardless of attendance. Please remember that lunch cost is part of your tuition.

Registrations canceled in writing before 5:00 pm on September 20, 2006 will receive a full refund. After that date a \$20.00 cancellation fee will be assessed.

Volunteer Fire Fighter Training Fund Credit

The Volunteer Fire Fighter Training Fund will cover the tuition portion of the following classes:

- ADVANCED AUTO EXTRICATION
- EMERGENCY VEHICLE DRIVER TRAINING
- HANDLING PROPANE EMERGENCIES
- INTERIOR FIRE ATTACK: GROUND LEVEL ENTRY
- INTERIOR FIRE ATTACK: LADDER ENTRY
- RAPID INTERVENTION TEAMS 1

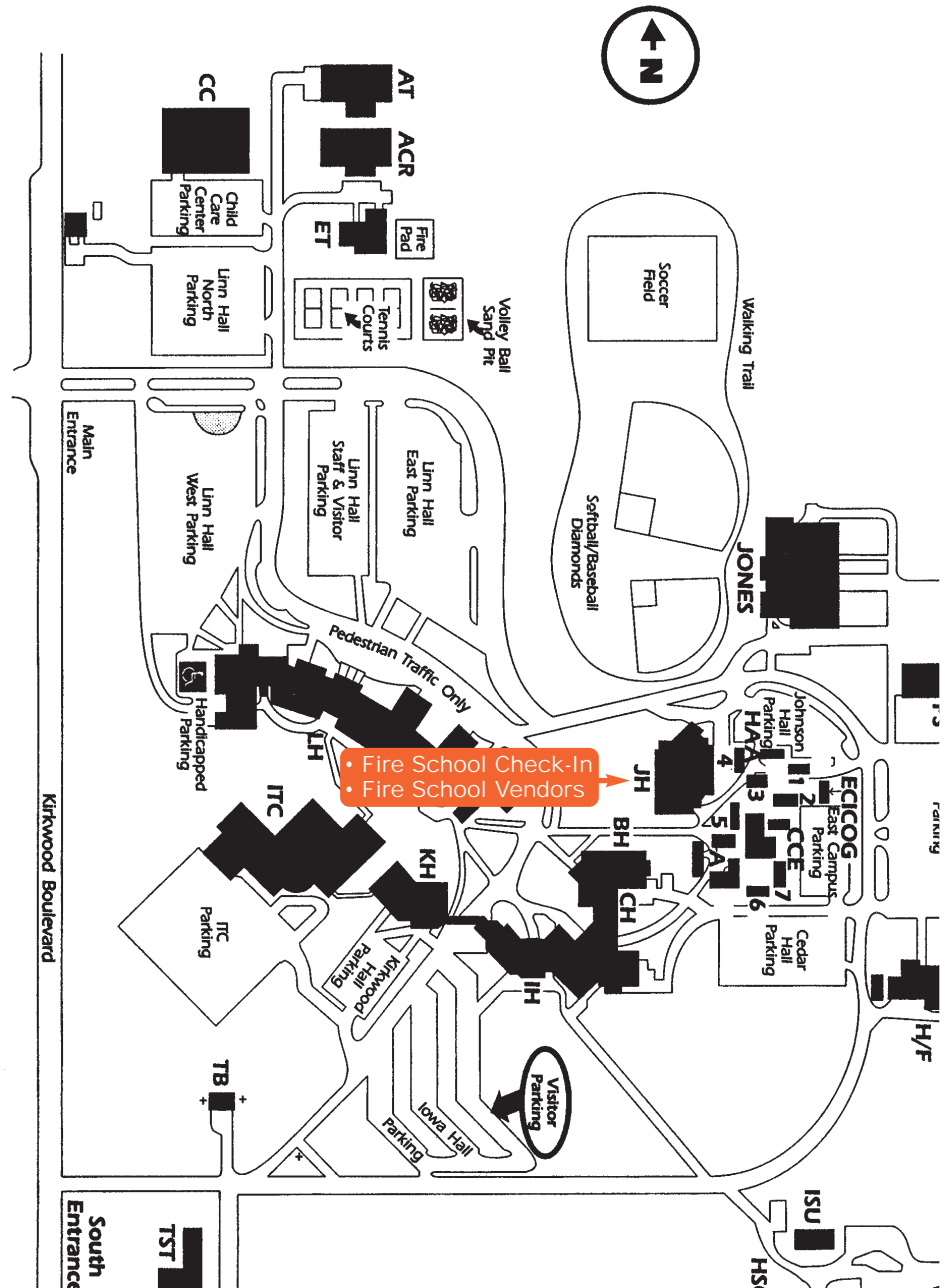

This payment was only a reduction in the cost of the classes. You are still responsible for the Registration fee listed for each class which also includes the cost of your lunch.

AgTerror Preparedness Grant

The AgTerror Preparedness grant will cover the tuition portion of the following classes:

- Foreign Animal Disease Response Awareness Training For First Responders
- This payment was only a reduction in the cost of the classes. You are still responsible for the Registration fee listed for each class which also includes the cost of your lunch.

PERTINENT FIRE SCHOOL INFORMATION

Exhibitor Times

Manufacturers and dealers will be on hand this year to assist with the fire school and to answer your questions, they will be located at Johnson Hall (the gymnasium). Again you will have a chance to win door prizes from manufacturers and dealers.

Saturday Times: 7:00 AM – 7:00 PM

Sunday Times: 7:00 AM – 1:00 PM

MOTELS

There are several motels available close to the Kirkwood Campus. Please mention you are attending a Kirkwood Community College sponsored event. Some suggested motels are:

Aspen Inn – 3242 S Ridge Drive SW – (319) 363-9999

Crowne Plaza – 100 3rd Street SE – (319) 363-81612

EconoLodge - 622 33rd Ave SW - (319) 363-8888

Fairfield Inn - 3243 Southridge Dr SW - (319) 364-2000

Hampton Inn - 3265 Sixth Street SW - (319) 364-8144

Holiday Inn Express - 3320 Southgate Ct. SW - (319) 399-5025

Howard Johnson Airport Express - Wright Bros Blvd - (319) 363-3789

Four Points by Sheraton - 525 33rd Ave SW - (319) 366-8671

Super 8 - 400 33rd Ave SW - (319) 363-1755

The Central Iowa Training Association along with
Kirkwood Community College
proudly celebrates the

20th Annual CITA—Kirkwood Fire School

The Central Iowa Training Association Board of Directors and the Fire School Committee would like to take this time and thank all of you that have supported our Annual Fire School for 20 years. This fire school would not survive if it wasn't for all of the Students, Instructors, Vendors, Staff, Area Fire Departments, Kirkwood Community College and the many donations.

We would like to invite you to attend an **Appreciation Barbeque** on Saturday, September 23, 2006 from 4:00—7:00 pm at Kirkwood Community College's East Campus. The Barbeque is **FREE** to all paid Students, along with Staff, Vendors, Instructors, Committee Members Past and Present and CITA Board Members Past and Present and Major Contributors.

Once you have registered and paid your tuition you will receive and R.S.V.P. in the mail to fill out and return for admittance into the Appreciation Barbeque. The first 500 returned R.S.V.P.'s will receive a free 20th Annual CITA-Kirkwood Fire School Hat. R.S.V.P. is mandatory as we need an accurate head-count.

LEARNING SEMINARS

Crew Resource Management

For: All Fire and Rescue Service Personnel

Instructor(s): Jerry Holt, Chief, Urbandale Fire Department; Rick Roe, Chief, Clive Fire Department

Objective: This class will introduce the participants to the principals of crew resource management used by the airline industry to reduce the likelihood of "getting it wrong" and how that can be applied to our jobs. By applying these tried and true principles to our jobs we can assure safe and efficient operations and make sure "everyone goes home!" This class is a must for the newest firefighter to the most experienced officer.

Saturday (9:00 am - 12:00 pm) Section #:036284 Registration Fee: \$20

Sunday (12:30 pm - 3:30 PM) Section #:036352 Registration Fee: \$20

Emergency Burn Care

EMS Credit: Approved for (3.0 FE) EMS Credit

For: All Fire, EMS and Rescue Service Personnel

Instructor(s): Jackie Heinle, University of Iowa Hospitals & Clinics, Department of Nursing, Iowa City

Objective: The purpose of this program is to provide current emergency care management and interventions to the critically injured adult and pediatric burn patient. Upon completion of this topics you will be able to: Identify the components of the primary and secondary survey and identify management techniques for the burn victim; determine the depth of burn injury and the extent of the burn size; estimate and initiate fluid resuscitation needs for the burn patient.

Saturday (9:00 am - 12:30pm) Section #:036286 Registration Fee: \$22

Emergency Response to Chemical Releases Refresher

EMS Credit: Approved for (3.0 FE) EMS Credit

For: All Fire EMS and Rescue Service Personnel

Instructor(s): Linn County HazMat Team Personnel, Iowa

Objective: This course is the annual refresher to Emergency Response course (29 CFR 1910.120). Fulfills the requirement for both technician and operation level personnel.

Sunday (8:30 am-11:30 am) Section #:036288 Registration Fee: \$22

PERTINENT FIRE SCHOOL INFORMATION

IOWA CERTIFICATION REGIONAL EXAM

The Fire Service Training Bureau will offer the Fire Fighter I, II, and Fire Service Instructor 1 exams at the Kirkwood Community Training and Response Center on Saturday, September 23, 2006 at 5:00 pm.

Attendance is by pre-registration only. NO WALK-INS WILL BE ALLOWED. Those testing need to submit an application form and certification fee or billing information to the Certification Unit at the Fire Service Training Bureau. To receive an application packet, please contact the Fire Service Training Bureau, 888-469-2374. Fire Fighter 1 & 11 exams are based on the 2002 edition of the NFPA 1001 standard and the Essentials 4th Edition. Bring full protective equipment & SCBA to the class and examination. No facial hair in the area of the face piece seal is allowed. No exceptions will be made. Application deadline is September 8, 2006.

Disclaimer

The 20th Annual Central Iowa Training Association and Kirkwood Community College Fire School, except as provided under Chapter 25-A of the Code of Iowa relating to tort claims, shall not be held liable for damages or injuries to students or persons participating in the school. Participants are advised to purchase individual insurance if their employer does not provide insurance coverage for injuries.

Health Warning

There may be some programs presented that require significant physical exertion. Persons with heart, respiratory, or other physical conditions that may be aggravated by this type of exertion, or that may hinder their participation should not participate in certain programs. Please consult your physician regarding your participation.

Age Requirement Policy

The following policies were put into effect regarding minimum age requirements for courses at the CITA-Kirkwood Fire School.

All Students must be at least 18 years of age and must be fully covered by insurance.

This policy has been implemented to assure the safety of the students who attend the scheduled classes at the Fire School.

PERTINENT FIRE SCHOOL INFORMATION

NOTICE: All hands-on courses requiring personal protective clothing (Full Gear) must include NFPA Compliant: helmet, protective hood, bunker coat & pants (3/4 boots won't be allowed in lieu of pants), firefighting boots, gloves, self contained breathing apparatus. Please note: Persons with beards (facial hair that contacts the SCBA seal) will NOT be allowed to participate in hands-on session of class. They may be able to participate in classroom and classes not requiring SCBA.

Parking is available in all lots, except for the handicapped zones. DO NOT bring bunker gear to registration.

If you have any questions other than registering, please call Kim at (319) 398-5678.

NEXT YEAR

The 21st CITA/Kirkwood Fire School will be held September 22 & 23, 2007.

DRESS CODE

It is each student's responsibility to use good judgment in selecting attire that projects a professional image while remaining appropriate for climate differences and safety in class activities. The Fire School Committee has the authority to make a determination that a participant's attire may be inappropriate.

LUNCH

Lunch is included in all registration fees. Your lunch ticket will be mailed with your conformation and name tag. You will not receive a refund from your registration fee if you choose not to participate in lunch.

LEARNING SEMINARS

Foreign Animal Disease Response Awareness Training For First Responders

EMS Credit: Approved for (4.0 OE) EMS Credit

For: All Fire, EMS and Rescue Service Personnel

Instructor(s): Staff, AgTerror Preparedness Center, Iowa

Objective: Responders are vital to containing and recovering from a foreign animal disease outbreak. Responders assess the local situation; assist state, federal and tribal agencies; coordinate local resources; and may remain on scene to control and prevent future contamination.

This Department of Homeland Security certified Foreign Animal Disease Response course focuses on best practices and safety issues in the event of outbreak. Learn the importance of preparing for a potential outbreak, prevention, containment, euthanasia, disposal, and recovery.

Responders are trained on: Quarantine, Personal Protective Equipment, Euthanasia and disposal of animals, Cleaning and defecation operations. Comprehensive field notes that capture the essential best practices are also provided.

Saturday (9:00 am - 1:00 pm) Section #:036296 Registration Fee: \$20

Sunday (1:00 pm - 5:00 pm) Section #:036357 Registration Fee: \$20

I Love a Firefighter (What the Family NEEDS TO KNOW)

For: All Fire, EMS and Rescue Service Personnel

Instructor(s): Kevin Wieser, Manchester Fire Department

Objective: Bridge the information gap between the firefighter and his/her family of the psychological consequences of the work. Understand how this unique job affects their family life; deal with routine daily fears and anxieties; balance work demands with responsibilities as a partner and parent; Build essential communication and problem solving skills; get needed support at home and to learn how to deal with stress and trauma.

Sunday (8:30 am-11:30 pm) Section #:036330 Registration Fee: \$20

LEARNING SEMINARS

Incident Response to Bombings - Awareness

For: All Fire, Law Enforcement, Bomb Technicians, Disposal Specialists, Hazardous Material Responders, EMS and Rescue Service Personnel
Instructor(s): Ken Metzler, Battalion Chief, Fremont County Fire District, Wyoming

Objective: This is a 4-hour class designed to provide basic instruction on weapons of mass destruction terrorist incidents, with a focus on explosive and incendiary devices. The course includes classroom presentations that address potential terrorist targets in the United States, common military and commercial explosives available to terrorists, improvised explosive devices, and response procedures that support safe and effective operations during bomb incidents.

The awareness course is designed for firefighters, law enforcement personnel, bomb technicians, disposal specialists, hazardous material responders emergency medical personnel and emergency planners, and other first responders that provide support for WMD incidents, particularly those involving explosive or incendiary material.

The purpose of this course is to provide participants with the skills and knowledge necessary to evaluate and respond effectively to incidents of terrorism that may involve energetic materials.

Sunday (8:30 am - 11:30 am) Section #:036332 Registration Fee: \$20

Mitigating a Spill Response: The How To's; Pro's & Cons, Legalities

For: All Fire, EMS and Rescue Service Personnel
Instructor(s): Doug Fauble, EcoSolutions, LLC, Iowa

Objective: When a spill occurs, there are a number of response actions that can be taken to mitigate the spill. These actions can vary depending on what type of spill it is. This course is a general category review of open market products and the advantages and disadvantages of these products. Will touch on the legal issues of mitigation and the ability to reduce your liability. Demonstrations of different products will be conducted.

Saturday (9:00 am - 12:00 pm) Section #:036338 Registration Fee: \$20

Saturday (1:00 am - 4:00 pm) Section #:036358 Registration Fee: \$20

Sunday (8:30 am - 11:30 pm) Section #:036344 Registration Fee: \$20

Sunday (12:30 pm - 3:30 pm) Section #:036353 Registration Fee: \$20

TWO DAY CLASSES

Positive Pressure Attack & Scenario Based Tactics

For: All Fire and Rescue Service Personnel
Instructor(s): Kriss Garcia & Reinhard Kauffmann, Salt Lake City Fire Department, Salt Lake City, Utah

Objective: Our Positive Pressure Attack course is backed by 15 years of research. We concentrate on the basics and mechanics of positive pressure attack that gives students a solid background in theory and concept. We then answer '20 Burning Questions' that debunk the most common myths surrounding the use of positive pressure as a ventilation tactic. Students are then taught the application of positive pressure attack and are shown demonstrations of evolutions that place positive pressure attack into practice. This is accomplished without adding time to the initial fire attack while, at the same time, finding victims quicker and controlling the fire sooner. The course concludes with scenarios that challenge the students to solve tactical fire problems utilizing the Positive Pressure Attack principals presented earlier in the course.

Saturday (9:00 am - 4:00 pm) Section #:036342 Registration Fee: \$50

Sunday (8:30 AM-3:30 PM)

Technical Rope Rescue

Required Equipment: Work clothes, shoes with ankle support (no tennis shoes) turnout gear, helmet and gloves are needed.

EMS Credit: Approved for (12.0 OE) EMS Credit

For: All Fire, EMS and Rescue Service Personnel

Instructor(s): Doug Wyman, Marion Fire Department; Kurt Carlson, Marion Fire Department; Cal Wyman, Mason City Fire Department

Objective: In this course you will learn how to perform low angle rescue, high angle rescue, mechanical advantage for confined space rescue and repelling using what is on your trucks and what is in your stations with a small purchase of ropes and rigging hardware. You will learn about ropes and knots, mechanical advantage, rigging and anchoring. You will learn about patient packaging in different extrication devices. You will learn how to make high point anchors from ladders and other parts of your engine. There will be a lot of hands on applications.

Saturday (9:00 am - 4:00 pm) Section #:036349 Registration Fee: \$70

Sunday (8:30 AM-3:30 PM)

TWO DAY CLASSES

Introduction to High Angle Rope Rescue

Required Equipment: Students in this class must bring a helmet (rescue helmet preferred). Students must wear long pants

EMS Credit: Approved for (12.0 OE) EMS Credit

For: All Fire, EMS and Rescue Service Personnel

Instructor(s): Jim Whitaker, Burlington Fire Department; Aaron Whitaker, Davenport Fire Department; Ray Wilson, Mediapolis Fire Department

Objective: This course covers the basics of high angle rope rescue including knots, rigging, belaying, rappelling, raising and lowering systems, mechanical advantage, litter rigging, patient packaging and rescue procedures. The course will consist of 4 hours classroom and 8 hours hands on time working at 50 feet or higher.

Saturday (9:00 am - 4:00 pm) Section #:036335 Registration Fee: \$70
Sunday (8:30 AM-3:30 PM)

Mobile Home Fire Response

Required Equipment: Full NFPA compliant protective clothing and SCBA, will be required for all students involved in the hands-on portion of this class.

For: All Fire and Rescue Service Personnel

Instructor(s): Mike Fredericks, Cedar Rapids Fire Department; Craig Dirks, Cedar Rapids Fire Department; Marc Reyhons, Iowa City Fire Department; Steve Burch, Panora Fire Department; Rick Halleran, Cedar Rapids Fire Department; Scott Donohoe, Cedar Rapids Fire Department

Objective: Mobile homes can be found in nearly every community in Iowa. This two-day course will focus on pre-standard mobile homes and will provide the participant with knowledge of the construction techniques and materials used in these structures, and some of the unique hazards associated with them. Also discussed will be strategies and tactics in fighting mobile home fires. Numerous hands-on activities will emphasize basic search skills, fire attack methods, rapid entry techniques, and coordinated response.

Saturday (9:00 am - 4:00 pm) Section #:036340 Registration Fee: \$70
Sunday (8:30 AM-3:30 PM)

LEARNING SEMINARS

River Rescue Awareness

EMS Credit: Approved for (3.0 OE) EMS Credit

For: All Fire, EMS and Rescue Service Personnel

Instructor(s): Lenny Drake, Cedar Rapids Fire Department

Objective: This course will help you answer the real questions: How prepared are you to deal with a situation such as this one? With the exception of fires, swiftwater and flood events are the most common and widespread of natural disasters. They threaten communities in virtually every corner of the planet. While it might have been a major event, more often it was a simple rescue that went bad because the rescuers lacked the knowledge, skill and equipment to deal with it. You will learn the SANE approach; the seven reasons why rescues fail; learn to identify a lowhead dam, understand the 4 steps of the rescue sequence, and the understanding of how to handle the hypothermic patient.

Sunday (8:30 am – 11:30 am) Section #:036347 Registration Fee: \$20

Teaching Your Community Emergency Preparedness

For: All Fire, EMS and Rescue Service Personnel

Instructor(s): J. Ryan Currens, Traer Fire Department

Objective: Community members have always come to Firefighters for all kinds of help. Since 9-11 more Americans have been concerned about Emergency Preparedness. This class will assist Fire Service and EMS personnel in preparing the members of their communities for Emergencies. Topics include: Emergency Kits (Personal, Auto, Home, Office); Likely Emergencies; and Basic Survival.

Saturday (1:00pm – 4:00 pm) Section #:036348 Registration Fee: \$20
Sunday (12:30 pm – 3:30 pm) Section #:036361 Registration Fee: \$20

ONE DAY CLASSES

Advanced Firefighting

Required Equipment: Full NFPA compliant protective clothing and SCBA, will be required for all students involved in the hands-on portion of this class.

For: All Fire, EMS and Rescue Service Personnel

Instructor(s): Marv Trimble, Cedar Rapids Fire Department; Staff from the Coralville Fire Department

Objective: For those who think they have done it all, this course is designed to challenge those firefighters who are Firefighter I. In this course you will learn to respect all the tools that firefighters use. From SCBAs to hose and nozzles. In this course you will learn to use equipment that may not be yours. Full turn out with SCBA and a spare bottle are required along with all the regulations covering use of this equipment, clean shaven and long pants and shirts are required for this class. We will incorporate the use of imaging cameras in this class if possible. A one day down and dirty class.

Saturday (9:00 am - 4:00 pm) Section #:036270 Registration Fee: \$44

Agricultural Grain Bin Rescue Training

Required Equipment: Full NFPA compliant protective clothing, will be required for all students involved in the hands-on portion of this class.

EMS Credit: Approved for (6.0 OE) EMS Credit

For: All Fire, EMS and Rescue Service Personnel

Instructor(s): Jerry Eslick and PRI Staff, Fort Dodge

Objective: This course is designed to raise awareness about bin-rescue procedures and equipment, will provide extensive hands-on training. Participants will gain experience working in grain bins and using technical rescue equipment, such as ropes, harnesses, carabiners, mechanical-advantage systems, anchorage points, cofferdams, breathing apparatus, tripods, and victim packaging. They will experience first hand an actual engulfment and the pressures involved on their body.

Participants will get their hands dirty. We will be simulating engulfment, and actually be pulling people out of grain, just like in a rescue situation. We'll be packaging people and pulling them through the roofs of bins, working at heights, and building cofferdams in grain. We're going to show how time-intensive and how difficult these things can be.

Sunday (8:30 AM-3:30 PM) Section #:036272 Registration Fee: \$47

TWO DAY CLASSES

Basic Firefighting

Required Equipment: Full NFPA compliant protective clothing and SCBA, will be required for all students involved in the hands-on portion of this class.

For: All Fire and Rescue Service Personnel

Instructor(s): Randy Zbanek, Ely Fire Department; John Zlabek, Hiawatha & West Bertram Fire Department; Shaun Fluharty, Marion & West Bertram Fire Department; Roger Berry, Indianola Fire Department; Jason Snitkey, Walker Fire Department

Objective: This course covers the necessary skills for basic firefighting operations. The course includes a blend of lecture with the majority of class time focused on practical skills and competency. Topics include: firefighter safety, use and care of SCBA, basic search and rescue techniques, use of fire extinguishers, fire behavior and fire attack with water fire streams. This class is NOT a substitute for the Firefighter 1 class.

Saturday (9:00 am - 4:00 pm) Section #:036275 Registration Fee: \$70

Sunday (8:30 AM-3:30 PM)

Fire Ground Support Operations

Required Equipment: Full NFPA compliant protective clothing and SCBA, will be required for all students involved in the hands-on portion of this class.

For: All Fire and Rescue Service Personnel

Instructor(s): Dean Tope, Fred Malven, Joe Mousel, Dennis Pratt, Brad Melton and Bob Jensen; Nevada Fire Department, Nevada

Objective: Fireground Support Operations is a 2-day class, covering 10 important fireground functions, all rolled into one. This class is "Hands-On" with minimal classroom time. Starting with theory of Fireground Support Operations and how it can be implemented into your fire departments daily operations. Fireground Support OPS will cover a wide range of topics but emphasizing on Ventilation, Entry, Search for Fire (Overhaul), and Search for Victims (Rescue). Known as V.E.S.S. This hands on class will end with a "Real-Time" scenario applying all that you had learned. So come prepared to get dirty and leave with some information that can make your departments more efficient and safer.

Saturday (9:00 am - 4:00 pm) Section #:036292 Registration Fee: \$70

Sunday (8:30 AM-3:30 PM)

TWO DAY CLASSES

Advanced Auto Extrication

Required Equipment: Full NFPA compliant protective clothing and safety glasses, will be required for all students involved in the hands-on portion of this class.

EMS Credit: Approved for (12.0 OE) EMS Credit

For: All Fire, EMS and Rescue Service Personnel

Instructor(s): Brock Staley, Fire Service Training Bureau Staff

Objective: "This 12-hour "advanced" course builds upon the basics of vehicle extrication, including vehicle anatomy, scene assessment, hazard control, scene stabilization, disentanglement techniques and procedures, tool selection and personal safety. Advanced extrication techniques will be performed on a number of different vehicles by participants utilizing various hand, pneumatic and hydraulic powered tools. Advanced scenarios will be utilized in this program."

Saturday (9:00 am - 4:00 pm) Section #:036269 Registration Fee: \$50

Sunday (8:30 AM-3:30 PM)

Arson Detection for the 1st Responder

For: All Fire and Rescue Service Personnel

Instructor(s): Staff from the National Fire Academy

Objective: This class is designed specifically to provide a clear definition of the role of initial responder organizations, and to provide essential knowledge to enable them to recognize the potential of an intentionally set fire, preserve evidence, and properly report the information to appropriate officials. The training course includes the following basic topics: fire behavior, critical observations of the first responder, fire cause, scene security and evidence preservation, legal considerations, and reporting of findings. Prerequisites: This training class is designed specifically for the firefighter who is inexperienced in arson detection. It is not designed for arson experienced firefighter or investigator.

Saturday (9:00 am - 4:00 pm) Section #:036273 Registration Fee: \$50

Sunday (8:30 AM-3:30 PM)

Basic Fire Investigation Awareness (Hands-On)

Required Equipment: Full NFPA compliant protective clothing and flashlight, will be required for all students involved in the hands-on portion of this class.

For: All Fire and Rescue Service Personnel

Instructor(s): Jim Thiele, Special Agent, State Fire Marshal's Office

Objective: This course will discuss the knowledge and skill necessary to determine origin and cause of fires whether accidental or incendiary on-scene investigation of a live burn. Students will participate in determining the cause and origin of an actual fire scene.

Saturday (9:00 am - 4:00 pm) Section #:036274 Registration Fee: \$70

Sunday (8:30 AM-3:30 PM)

ONE DAY CLASSES

Basic SCBA/Search & Rescue

Required Equipment: Full NFPA compliant protective clothing and SCBA, will be required for all students involved in the hands-on portion of this class.

For: All Fire and Rescue Service Personnel

Instructor(s): Dubuque County Firefighter's Association Staff

Objective: After completing this course the student will be able to safely use, clean, recharge, inspect and store a SCBA. The student will be able to list physical, mental, and medical factors that effect the firefighter's ability to use the SCBA, describe the equipment and air supply limitations. The student will also correctly don and use the SCBA and refill the SCBA from a Cascade System. In addition the student will learn Search and Rescue techniques. Too many firefighter's lives are lost when searching for civilians and/or other firefighters. The participant should have a better understanding of how to complete the search, perform a successful rescue, and return safely.

Saturday (9:00 am - 4:00 pm) Section #:036276 Registration Fee: \$44

Sunday (8:30 AM-3:30 PM) Section #:036277 Registration Fee: \$44

Basic Vehicle Extrication

Required Equipment: Full NFPA compliant protective clothing and safety glasses, will be required for all students involved in the hands-on portion of this class.

EMS Credit: Approved for (6.0 OE) EMS Credit

For: All Fire, EMS and Rescue Service Personnel

Instructor(s): Bob Sandry, Sandry Fire Supply & Staff, DeWitt

Objective: Auto accidents are the leading cause of accidental injury and death, and are some of the most common rescues that we respond to. Injured victims can be entrapped by the vehicle, requiring efficient and effective extrication operations to free them. Improper extrication methods can cause unwanted movement and additional injury to these patients. This course will give the student the techniques needed to safely size-up and mitigate an emergency involving an automobile type vehicle. Students will learn the proper procedures for vehicle stabilization, patient disentanglement and removal. This course will give the students hands-on experience with various types of rescue tools.

Saturday (9:00 am - 4:00 pm) Section #:036278 Registration Fee: \$50

ONE DAY CLASSES

Basic Vehicle Firefighting

Required Equipment: Full NFPA compliant protective clothing and SCBA, will be required for all students involved in the hands-on portion of this class.

For: All Fire and Rescue Service Personnel

Instructor(s): Randy Thompson, Grundy Center Fire Department

Objective: This class will teach firefighters to safely handle car fires and manage incident scene, demonstrate proper size-up, apparatus placement, hose placement, recognize the hazards involved with care fires, demonstrate gaining access, overhaul and termination of an incident.

Saturday (9:00 am - 4:00 pm) Section #:036279 Registration Fee: \$50

Sunday (8:30 AM-3:30 PM) Section #:036280 Registration Fee: \$50

Cars, Trucks, Busses and Grinder Wrecks

For: All Fire and Rescue Service Personnel

Instructor(s): Ken Metzler, Battalion Chief, Fremont County Fire District, Wyoming

Objective: "This course covers the mechanisms of injury in various types of wrecks that you may encounter. You will cover Car vs. Car, Semi vs. Car, Bus vs. construction and how to "Read a Wreck." Will also cover Hazardous material response to motor vehicle accidents and clues to help identify contents and types of trailers. Along with vehicle fires, new vehicle design and establishing safe zones and responder safety due to the increased hazards that we encounter."

Saturday (9:00 am - 4:00 pm) Section #:036281 Registration Fee: \$25

Chief Officer Training

For: All Fire Rescue Service Personnel

Instructor(s): Mike McKinnon, Chief, Denison Fire Department

Objective: This class is designed for new and existing fire chiefs, as well as fire fighters who aspire to become officers in the department. The class will provide an overview of the rules and regulations that govern fire departments. We will also discuss such issues as recruitment and retention of fire fighters, managing the department, dealing with governing officials, reporting requirements, financing, grants and other resources, training, fireground control and other topics.

Saturday (9:00 am - 4:00 pm) Section #:036351 Registration Fee: \$40

Sunday (8:30 AM-3:30 PM) Section #:036282 Registration Fee: \$40

ONE DAY CLASSES

Putting the Ed Stuff on the Red Stuff

For: All Fire and Rescue Service Personnel

Instructor(s): Anne Metzler, Wyoming

Objective: Want to do more public fire education than you are currently doing, but not sure how to go about it? Whether you want to get an initial public education program off the ground, or expand an existing one, this class will provide you with useable ideas. In addition, how different age groups learn and some of the teaching techniques you can use will be discussed, which will help you plan an effective public education presentation and reach your target audience.

Saturday (9:00 am - 4:00 pm) Section #:036345 Registration Fee: \$40

Rapid Intervention Teams 1

Required Equipment: Full NFPA compliant protective clothing and SCBA, will be required for all students involved in the hands-on portion of this class.

For: All Fire and Rescue Service Personnel

Instructor(s): Rodney Hawkins, Fire Service Training Bureau, Field Staff

Objective: Instructing students on Rapid Intervention teams, how and why the train to save our own. Also basic self survival skills to help the firefighter try and get out by the self with partner.

Saturday (9:00 am - 4:00 pm) Section #:036346 Registration Fee: \$44

Sunday (8:30 AM-3:30 PM) Section #:036360 Registration Fee: \$44

Youthful Firesetter Intervention Workshop

For: All Fire and Rescue Service Personnel

Instructor(s): Jim Plunket, Lombard Fire Department, Illinois

Objective: To help firefighters and other emergency personnel be more aware of the growing juvenile firesetting problems. Also to help them recognize the firesetting problem at different age groups, and give them ideas on how to work with the child and the families in behavioral change programs to overcome this problems.

Saturday (9:00 am - 4:00 pm) Section #:036350 Registration Fee: \$40

ONE DAY CLASSES

Mobile Flashover Training Unit

Required Equipment: Full NFPA compliant protective clothing and SCBA, will be required for all students involved in the hands-on portion of this class.

For: All Fire and Rescue Service Personnel

Instructor(s): Staff, Customized Firefighter Training, Graettinger

Objective: The Flashover Unit allows Firefighters the opportunity to see, look for and learn to recognize the pre-flashover conditions. The Firefighter will see and experience real fire that will follow the realworld time temperature curve, not some computerized controlled propane simulation. It is extremely important that Firefighters not only appreciate the limits of their protective gear but to experience the fully developed fire, dense smoke, high heat, and rollover-the warning signs of flashover, all of which are present in the unit. Must be trained to the Fire Fighter 1 level and have approval from your fire chief in order to participate.

Saturday (9:00 am - 4:00 pm) Section #:036339 Registration Fee: \$50

Sunday (8:30 AM-3:30 PM) Section #:036359 Registration Fee: \$50

PIO: Tips for Line Officers

For: All Fire, EMS and Rescue Service Personnel

Instructor(s): Jim Plunket, Lombard Fire Department, Illinois

Objective: This program is targeted at line personnel who are put in front of the media at an emergency scene and how to survive an interview. Also the class will give personnel a better understanding of the duties of a Public Information and how to make your department look good every day of the week. We will review making Press Releases, writing informational columns for the newspaper, and many other ways to help promote your department.

Sunday (8:30 AM-3:30 PM) Section #:036341 Registration Fee: \$40

Pump Operations

Required Equipment: Full NFPA compliant protective clothing, will be required for all students involved in the hands-on portion of this class.

For: All Fire and Rescue Service Personnel

Instructor(s): Jerry Eslick and PRI Staff, Fort Dodge

Objective: This course deals with the actions required to effectively understand hoses, nozzles and appliances, pumps, as well as the delivery of water in an effective manner to mitigate incidents. Without question, fire department pumpers are the most important apparatus used for controlled application of water and other extinguishing agents. No fire department can operate without pumping apparatus. This course is one of the easiest methods to attempt to ensure that all pump operators perform properly and professionally.

Saturday (9:00 am - 4:00 pm) Section #:036343 Registration Fee: \$47

ONE DAY CLASSES

Confined Space Rescue

Required Equipment: Will need helmets, leather gloves, safety glasses and footwear that provides ankle support, will be required for all students involved in the hands-on portion of this class.

EMS Credit: Approved for (6.0 OE) EMS Credit

For: All Fire, EMS and Rescue Service Personnel

Instructor(s): Jerry Eslick and PRI Staff, Fort Dodge

Objective: This course is designed to provide basic information for confined space rescue responses. The focus is on the hazardous atmospheres, because this is most often confronted in a confined space. Students will practice rescue techniques in a State-of-the-Art training simulator for both horizontal and vertical rescues. Students will understand facility pre-planning, working with the IMS and establish procedures for conducting rescues.

Sunday (8:30 AM-3:30 PM) Section #:036283 Registration Fee: \$47

D-Motivation 101

For: All Fire, EMS and Rescue Service Personnel

Instructor(s): Mike Hartman, Muscatine Fire Department

Objective: This course will review an essential part of leadership - MOTIVATION. Some of the present theories of motivation and leadership will be discussed and built upon as we tackle real-life scenarios. Providing motivation (or removing demotivation) is a critical skill for the fire officer to possess. Participants will walk away with a better understanding of how, when and why to "crack the whip" or "buy them off" - the contingency type of leadership. Motivating Generation "X", "Y", and "?" members will be discussed at length.

Saturday (9:00 am - 4:00 pm) Section #:036285 Registration Fee: \$40

Sunday (8:30 AM-3:30 PM) Section #:036354 Registration Fee: \$40

ONE DAY CLASSES

Emergency Response to Chemical Releases (Ops Level)

EMS Credit: Approved for (6.0 OE) EMS Credit

For: All Fire EMS and Rescue Service Personnel

Instructor(s): Linn County HazMat Team Personnel

Objective: First Responders at the Operations Level respond defensively to release or potential releases of hazardous substance to protect nearby persons, property or the environment. They are trained to contain the release from a safe distance, keep it from spreading and prevent exposure.

Saturday (9:00 am - 4:00 pm) Section #:036287 Registration Fee: \$40

Emergency Vehicle Driver Training

EMS Credit: Approved for (6.0 OE) EMS Credit

For: All Fire EMS and Rescue Service Personnel

Instructor(s): Fire Service Training Bureau Staff

Objective: Each year approximately twenty five percent (25%) of the firefighters killed in the line of duty are either responding to or returning from the scene of an emergency incident. This comprehensive course, developed by the Volunteer Fire Insurance Services (VFIS), is designed to prepare emergency responders with the necessary skills and knowledge to drive emergency vehicles. This program will help emergency responders understand the possible problems with driving emergency vehicles, and how to safely operate these vehicles.

Saturday (9:00 am - 4:00 pm) Section #:036289 Registration Fee: \$32

Farmedic Recertification

Required Equipment: Full NFPA compliant protective clothing, will be required for all students involved in the hands-on portion of this class.

EMS Credit: Approved for (6.0 OE) EMS Credit

For: All Fire, EMS and Rescue Personnel currently certified in the FARMEDIC 16 Hr Program

Instructor(s): Jeff Mitchell, EMT-I, EMS Coordinator for Veterans Memorial Hospital, Waukon and Waterville Fire Department Members

Objective: The class will review preplanning strategies, safety, treatment and updating on new concepts in farm rescue. The majority of the day will be hands-on, working with machinery and performing extrication and treatment of the victims. Pre-requisite: FARMEDIC 16-Hour class.

Saturday (9:00 am - 4:00 pm) Section #:036290 Registration Fee: \$44

ONE DAY CLASSES

Iowa Emergency Communications Taskforce (Iowa ECOM)

For: All Fire, Law Enforcement, Hazardous Material Responders, EMS and Rescue Service Personnel

Instructor(s): Nancy Brady, Iowa Law Enforcement Academy, Johnston; Blair Dickey, Team Leader, Louisa County Sheriff's Office; Jon Davis, Trainer, First Contact 9-1-1- & FEMA USAR Task Force Lincoln 1

Objective: Hurricane Katrina initiated a call-up of Iowa's communications personnel to be on stand-by for a response to New Orleans. Thirty of Iowa's finest stood ready to respond, but were not needed in the end. However, this potential call-up by Iowa Homeland Security Emergency Management caused the formation of Iowa's Emergency Communications Task Force. The team's goal is to assist whenever a local 9-1-1 infrastructure is compromised by a natural disaster or terrorist event; or in the event of a communications center is in need of emergency assistance. Iowa's ECOM Team deployed righter here in Iowa shortly after it was developed when one communications center suffered a tragic loss of a staff member. This program will provide you with the basic training requirements to become a team member and information about our on-going training and team efforts.

Saturday (9:00 am - 4:00 pm) Section #:036336 Registration Fee: \$40

Meth Lab Awareness and Other Surprises

EMS Credit: Approved for (6.0 OE) EMS Credit

For: All Fire, EMS and Rescue Service Personnel

Instructor(s): Dennis Correll, Medford, Minnesota

Objective: To be the first on a fire scene, could mean that you are the first one exposed to the hazardous chemicals of a methamphetamine lab. Did you protect yourself? Did you tell everyone else about the possibility? If you don't inform them are you liable? In this course we will look at meth labs and what makes them, how the chemicals are used, and what to look for. Then we will look at some different types of devices that have been use to hurt and even kill drug counter parts in an effort to control the local drug market. We do this in an attempt to make you safer should you ever encounter one of these situations. In an attempt to help the communication between Firefighters and Law Enforcement Officers all are welcome.

Sunday (8:30 AM-3:30 PM) Section #:036337 Registration Fee: \$40

ONE DAY CLASSES

Interior Fire Attack: Ground Level Entry

Required Equipment: Full NFPA compliant protective clothing and SCBA, will be required for all students involved in the hands-on portion of this class.

For: All Fire and Rescue Service Personnel

Instructor(s): Fire Service Training Bureau Staff

Objective: Students will gain information and practice the skills required to enter structures at ground level. The basic principles of fire fighter safety, fire behavior, thermal layering, flameover, backdraft, ventilation, stages of fire and fire streams will be reviewed in the classroom. Students will put their knowledge to use in the Fire Service Training Bureau's two-story Mobile Fire Training Trailer. The trailer will simulate conditions encountered in actual interior structure fires. During the evolutions the student will be able to practice SCBA usage, hose handling skills, communications, and fire attacks simulating ground level and basement fires. Prerequisites for this course are: Basic knowledge and experience in the areas of: safety; fire behavior; personal protective equipment (PPE); ventilation; and fire hose, appliances, and fire streams.

Saturday (9:00 am - 4:00 pm) Section #:036333 Registration Fee: \$32

Interior Fire Attack: Ladder Entry

Required Equipment: Full NFPA compliant protective clothing and SCBA, will be required for all students involved in the hands-on portion of this class.

For: All Fire and Rescue Service Personnel

Instructor(s): Fire Service Training Bureau Staff

Objective: In this course the student will gain information and practice the skills required to enter structures using a ladder. The basic principles of ladder usage, water application, and ventilation will be reviewed. The class will practice correct ladder usage, advancing hose, fire attacks, and communications between working teams with the incident commander. Students will put their knowledge to use in the Fire Service Training Bureau's two-story Mobile Fire Training Trailer. The trailer will simulate conditions encountered in actual interior structure fires. Some of the evolutions the student may experience include second story entrance into a structure, fire attacks on either level, ventilation, and communication skills. Prerequisites for this course are: Basic knowledge and experience in the areas of: safety; fire behavior; ladders; personal protective equipment (PPE); ventilation; and fire hose, appliances, and fire streams.

Sunday (8:30 AM-3:30 PM) Section #:036334 Registration Fee: \$32

ONE DAY CLASSES

Fighting Fire with Foam

Required Equipment: Full NFPA compliant protective clothing and SCBA, will be required for all students involved in the hands-on portion of this class.

For: All Fire and Rescue Service Personnel

Instructor(s): Keenan O'Donnell, Task Force Tips, Rapid City, South Dakota

Objective: This class will explore both Class A and B Foam applications. Students will learn the differences in foams, proper use of foam equipment such as foam educators, proportioners, and foam nozzles, as well as application techniques and tactics. This class features table top demonstrations of current foam concentrates and is designed to give fire fighters a basic understanding of their equipment and how to achieve more effective control and extinguishment of fires involving ordinary combustibles and flammable liquids. First half is classroom. Second half is practical applications.

Saturday (9:00 am - 4:00 pm) Section #:036291 Registration Fee: \$44

Sunday (8:30 AM-3:30 PM) Section #:036355 Registration Fee: \$44

Firefighter Rehabilitation At the Incident Scene (Hands-On)

Required Equipment: Full NFPA compliant protective clothing, Blood-Pressure Cuff and Stethoscope.

EMS Credit: Approved for (6.0 OE) EMS Credit

For: All Fire, EMS and Rescue Service Personnel

Instructor(s): Tracy Tope (EMT-B), Procurement Officer, Nevada Fire/EMS, Nevada; Jennifer Filipiak (EMT-PS) Nevada Fire / EMS, Nevada

Objective: "What is the EMS "first responders" role after the ambulance has arrived and assumed primary responsibility for patient care? Simple. Everything else! This course will focus on the many and varied responsibilities EMS responders can assume at emergencies. It will explain the concept of "emergency support operations" and how to apply its principles to emergency scenes of all types. Emergency medical scene issues will include scene safety and hazard control, supplementary patient services, emergency scene lighting and coordination of patient movement. Attention will also be given to EMS support services at non-medical emergencies, including canteen and "rehab" services for fire, haz-mat, rescue, and law enforcement scenes, medical monitoring of personnel, coordination of scene safety, lighting, air supply (refills & bottle changes), and management of accountability systems. Essentially everything your fire personnel doesn't have the time or manpower to do."

Saturday (9:00 am - 4:00 pm) Section #:036293 Registration Fee: \$40

Sunday (8:30 AM-3:30 PM) Section #:036356 Registration Fee: \$40

ONE DAY CLASSES

First Response to Explosive Incidents

For: All Fire, Law Enforcement, Bomb Technicians, Disposal Specialists, Hazardous Material Responders, EMS and Rescue Service Personnel
Instructor(s): Dennis Correll, Medford, Minnesota

Objective: This program is designed to provide emergency responders and public safety personnel with a guidance when responding to incidents involving explosions, explosives, and bomb threats. As every incident is in some way different and unique from any other, the procedures in this course should serve as recommendations and are designed to assist responders when encountering such situations.

Saturday (9:00 am - 4:00 pm) Section #:036294 Registration Fee: \$40

Flammable Liquids

Required Equipment: Full NFPA compliant protective clothing and SCBA, will be required for all students involved in the hands-on portion of this class.
For: All Fire and Rescue Service Personnel
Instructor(s): Brent Smith, Coralville Fire Department; Bill Horning, Coralville Fire Department

Objective: This course is an entry level course that will supplement a firefighter's knowledge of basic hose handling, firefighting equipment, and extinguishing agents. It introduces the attacks and procedures required to safely control and extinguish flammable fuel fires, covering properties, and behavior of flammable liquids in bulk, fire extinguishing agents, safety, tactics, communications, and environmental concerns.

Sunday (8:30 AM-3:30 PM) Section #:036295 Registration Fee: \$44

Handling Propane Emergencies

Required Equipment: Full NFPA compliant protective clothing and SCBA, will be required for all students involved in the hands-on portion of this class.
For: All Fire and Rescue Service Personnel
Instructor(s): Cliff McFarland, Fire Service Training Bureau, Field Staff

Objective: This class is designed for all fire fighters who may be called upon when propane is inadvertently released from its container. The course starts with a classroom session on the physical properties of liquefied petroleum gases and more specifically, propane. This session is followed by hands-on evolutions demonstrating the proper offensive and defensive techniques for a propane device leaking product. The leak may or may not be ignited.

Saturday (9:00 am - 4:00 pm) Section #:036297 Registration Fee: \$32

ONE DAY CLASSES

Hazardous Materials Size-Up Hazardous

EMS Credit: Approved for (6.0 OE) EMS Credit

For: All Fire and Rescue Service Personnel

Instructor(s): Rocky Bell, Bell Emergency Training, Alliance, Nebraska

Objective: One of the most important steps in mitigation of a hazardous materials incident is the initial "size up" of the scene. If the size up is done correctly, the incident commander will have accurate, comprehensive information on which to base the objectives and goals of your response. This class is designed to instruct students, of all levels of response, on the components of hazardous materials size up. The goals and objectives of the class are met with lecture, live fire and chemical demonstrations, actual haz-mat scenarios and student interaction

Saturday (9:00 am - 4:00 pm) Section #:036298 Registration Fee: \$40

Incident Management System

EMS Credit: Approved for (6.0 OE) EMS Credit

For: All Fire, EMS and Rescue Service Personnel

Instructor(s): Bruce Spence,

Objective: This 8 hour course will give you the tools necessary to operate an incident management system at variety emergency scenes. What makes this presentation different from other IMS courses is that you will hear (on video tape) from representatives of EMS, Fire, Law enforcement, D.O.T., elected officials and the general public explaining why they are the ones that are in charge at any emergency scene.

After a brief lecture you will be part of a group doing exercises that will involve the use of a miniature table top community approximately 6 foot wide by 24 feet long consisting of a business district, residential, manufacturing and farm settings. You will be given Hot Wheel fire trucks, ambulances, police car, as well as firemen, policemen and ambulance personnel to place where you wish in order to mitigate the emergency.

Miniature victims / Patients on stretchers will have to be triaged, treated and the transported to the Hopeless town hospital. Traffic control and fire suppression will also have to be done at the scene. All of this will be done by you using 2-way radios as a member of a TEAM that is tasked with saving lives, reducing injury, and conserving property.

The following is a list of the different types of scenarios that I have done in the past: School Bus Accident with 15 to 20 injured; Train Accident with 5 to10 injured and command spill to cover both sides of the train; Haz. Mat. spill using train, truck, or a business; Major factory fire, explosion, terrorism or Haz. Mat.; Tornado, flood that involves the whole town; Bioterrorism - Farm hoof and mouth or mad cow; Terrorism act by radical person or group - anthrax or a clinic bombing.
